Valid on waxing of the body

● **Micro-Needling**

Micro-needling is a minimally invasive skin-rejuvenation procedure that involves the use of a device that contains fine needles. The needles are used to puncture the skin to create a controlled skin injury. Each puncture creates a channel that triggers the body to fill these microscopic wounds by producing new collagen and elastin. Through this process there is improvement in skin texture and firmness, as well as reduction in scars, pore size, and stretch marks.

Starter kit and first three treatments £115.00

● **Facials**

Streamlined skincare that takes your individual skin into account Artistry is based on a balance between the best of nature and state-of-the-art science to deliver great benefits straight to your skin. Many of the botanicals come from organic-certified farms guaranteeing you high quality natural ingredients
